

PAST EVENT

What are you doing for the rest of your life?

The face of retirement is changing! People are looking at retirement as a beginning, not an end. An entire generation is interested in their ability to pursue their own dreams and goals, at their own pace, and on their terms. As they look forward, whether they are retired or looking to retire, many people ask the question:

What will my retirement look like and how do I get there?

We'll give you some innovative ways to look at those questions at "The New Retirementality" Workshop. Join us for this interactive workshop, where you can:

- Take a look at what retirement used to mean
- Learn exactly what "The New Retirementality" is
- Begin to envision what your retirement may look like with our exclusive "Vision Cards"
- Learn the 5 "Vitamin C's" of successful aging
- Begin to prioritize your retirement needs
- Connect your savings goals with your future vision

"The New Retirementality"

Featuring special guest speaker:

Rob Kochel
Vice President
Invesco Canada
